Information Systems Security & Compliance Certificate	Student:
Certificate	Advisor:
Effective Fall 2018	
	Major:

Students who complete this certificate will focus on protecting digital assets of an organization. The certificate examines security through two lenses: auditing compliance and managing risk. Compliance from an auditing perspective focuses on internal and general controls to achieve regulatory and organization guidelines. The second lens revolves around frameworks and strategies for n digital risk in the IT enterprise using a combination of policy and technical tools (s)-2.3 (n)2 [ttatance
